HOW TO READ THIS REPORT

Collected revenue includes Paid orders only. Pending: $595.50. Refunded: $760.50, shown separately and not subtracted from collected revenue. This status-based model is not an accounting transaction ledger.

Every returned record is validated. Missing fields, duplicate order IDs or invalid values stop the report rather than silently changing the totals. Multi-page Airtable reads are not a transactional snapshot; avoid editing source data while a report is being fetched.

Read-only automation. No Airtable writeback, email delivery or source-authenticity verification. Sample data is fictional.
